INVALIDS

Middlebury and Vicinity!
Your attention is urgently invited to several
and candid perusal of something that has
just been introduced into your society, barbers,
you come honored State.

PULVERMACHER'S

HYDRO-ELECTRIC VOLTAIC CHAINS

A new and most remarkable applying a powerful
tonic and remedial agent, so contrived as to be
worn under the garments, next to the skin,
producing a constant, uninterrupted current of
Electric Magnetism affecting Immediate Effect
from the most acute pain, and also a permanent
remedy for all diseases.

It seldom fails to furnish almost instant
relief, and a final permanent cure, by being
used according to directions, to the following
diseases:

Rheumatism, Gout, Neuralgia, Sciatica,
Painful and Swelling Joints, Viscous Diseases,
Nervousness of the Face, Graves Disease, Epilepsy, Liver Disease, Gouty, Rheumatic, &
Pains and Blindness, Hydrocephalus, Dystonia.

All diseases that are caused by a deficient
amount of Nervous Fluid, are greatly relieved
if not permanently cured, by early wearing
the chains, which have such a power.

BE IT UNDERSTOOD

That it is not claimed that it cures all diseases,
but those for which it is recommended,
and, moreover, we boldly claim and
defy, that no medicinal agent of any kind
has performed such a marvellous cure during the last year,

as is done by Dr. PULVERMACHER's
Electric Chains.

And to prove this assertion we fervently per-
mit to produce so many well-authenticated
certificates of Scientific Physicians and Intel-
ligent patients as may be found in a pamphlet
of 150 pages, to be had gratis (of the agents
in this city).

The Electric Chains were first introduced in
France, 1850, and after being subjected to the
most thorough and rigid trial, by the first
medical men in Paris, they were found to
possess strange and marvelous powers in re-
liefing pain, and were soon adopted by the
Influence was introduced into the hospitals of
that city, and also secured to letters patent by
the French Government.

They are now introduced in almost every
located England, Germany, Austria, Bel-
gium, and in those countries, where
they have become the fashion.

Most Popular Curative Agent in the World!

They were first introduced in the United
States about one year since, and went through
the same trial in Europe, and were at once
adopted into every hospital in New York,
where they are now in daily use, effecting even
more wonderful cures than had ever before
been awarded them.

They are highly recommended by Prof.
Valentine Motz, Van Buren, Post, and others,
who have published their views of their power
and virtue in several of the medical journals
and newspapers, and in daily practice, and
recommend them to all their friends.

A full account of their opinion may also be found in
every pamphlet, and sent to the address of
any person in the State by applying (postage
paid) to H. A. SHELDON, who is agent for
Middlebury. The chains can be sent by mail
at full postage for 50¢.

Physicians are politely invited to call and
examine their construction and pronounce
upon their merits.

ONE WORD TO INVALIDS.

No person need fear that they will be unable
to accomplish just what it is claimed they can,
and all persons who have become disengaged
with a constant pouring down of pain, no-
tice and rejoice, and quickly and painlessly
invited to give them a trial.

N. B.—One Chain will last for years and
take none of its elastic power by use, and can
be applied to either adult or child.
